

**4th BOSTON BIOTECHNOLOGY SUMMIT MEDIA INFORMATION PACKAGE
DISTRIBUTED TO MEDIA, COMMUNICATION AGENCIES, PRESS ATTACHES 12OCT20**

Please find attached the Booklet of **4th Boston Biotechnology Summit** on Covid-19 on 15 Oct 2020. The Summit is a trans-Atlantic bridge and started in 2017 as the 1st **Boston•Paris Biotechnology Summit** in Institut Pasteur of Paris.

We have convened an outstanding group of senior international Experts to help us, as life sciences professionals, acquire a comprehensive and data-driven understanding of the biology, treatment, prevention and public policy challenges of Covid-19. We also need to clarify how it will impact the finances and investments of the biotechnology community, and what it now takes to become effective leaders in this field.

Experts include Professor Jean-François DELFRAISSY chair of the French Covid-19 Scientific Committee, advising President Emmanuel MACRON of France & Professor Bruce WALKER, Director, Ragon Institute of MGH, MIT and Harvard, Co-Leader, Massachusetts Consortium for Pathogen Readiness (MassCPR)

We believe that Knowledge Management is a powerful tool, and particularly relevant at present. In just 2 hours, distil a large amount of data/experience on this pandemic, which is impacting us so directly. Indeed, this virtual format may actually sharpen focus!

The image shows a program grid for the 4th Boston•Paris Biotechnology Virtual Summit on 15 Oct. 2020. The grid is organized into six columns, each representing a different topic area. Each column lists the speaker's name, their title, and their affiliation. Below the text are small portrait photos of each speaker. The website www.bostonbiotechnologysummit.com is listed at the bottom.

Covid-19 Prevention: Public Policy	Covid19 Era Leadership	Covid-19 Era, Finance & Investment	Covid-19 Treatments: General Review	Covid-19 Treatments: Hospital Care	Covid-19 Prevention: Vaccination
J-F. DELFRAISSY	P. DOUGLAS	S. KORNOWSKI	D.R. KURITZKES	K. LACOMBE	B. WALKER
Chair, Covid-19 Scientific Council Advising French President E. Macron	Published Author, Board Member, Coach, Fmr Pharma, State, & Federal Executive	Managing Partner, Gurnet Point Capital Healthcare Fund (\$2B.)	Chief, Infectious Diseases, BWH, Prof. Harvard Medical School	Chief, Infectious Diseases, AP-HP Paris U. Hospitals, Prof. Sorbonne U.	Director & Professor, Ragon Institute of Harvard, MIT & MGH

www.bostonbiotechnologysummit.com

Please join us on 15 October! Registration is free via www.bostonbiotechnologysummit.com but it is mandatory; we are proud to be adding our contribution to a collective effort. It will soon be a year since this crisis has started. Take the time to sit back, analyze the data and think through the perspectives for 2021.

We are open to communicate with Media to help you also in your thinking.

We look forward to welcoming you to our Summit.

Kind Regards,

Shahin Gharakhanian
